

Pay less for select specialty medications

By completing the copay assistance enrollment process and consenting to account monitoring

Specialty medications can cost a lot of money. That's why Huber's Core* medical plan option offers a copay assistance benefit administered by SaveOnSP, which can help you lower your out-of-pocket costs.

Let SaveOnSP help you save money

Nearly 400 specialty medications are eligible for this plan benefit.¹ If you're filling an eligible medication, a representative from SaveOnSP will contact you to complete your copay assistance program's enrollment process and arrange for the monitoring of your account.

You'll pay a reduced cost for your medication after completing the enrollment process and consenting to SaveOnSP monitoring your pharmacy account. If you choose not to participate in the plan benefit, you'll pay a higher coinsurance when you fill your medication.

Conditions covered by manufacturer copay assistance programs include, but are not limited to:

- + Hepatitis C
- + Multiple sclerosis
- + Psoriasis
- + Inflammatory bowel disease
- + Rheumatoid arthritis
- + Cancer

Here's an example of how it works:²

John's taking a specialty medication that's eligible for the copay assistance benefit. His copay is currently \$70. His new coinsurance will be \$1,150.

When John participates in the Core* medical plan option, he may pay a reduced cost out of pocket.

He will work with SaveOnSP to enroll in the manufacturer copay assistance program, and he'll consent to SaveOnSP monitoring his account.

If John decides not to participate in the plan benefit, he'll pay his full coinsurance of \$1,150 out of pocket.

*Only available on the Core plan option. High-Deductible Health Plans (HDHP) are ineligible, so Choice I and Choice II plan options are excluded.

1. The drug classes and medications included are subject to change. Check your plan materials to see which medications SaveOnSP supports.

2. For illustrative purposes only. Plans may vary.
