

# PAY LESS FOR SELECT SPECIALTY MEDICATIONS

By completing the copay assistance enrollment process and consenting to account monitoring

Specialty medications can cost a lot of money. That's why your plan offers a copay assistance benefit administered by SaveOnSP, which can help you lower your out-of-pocket costs.

## Let SaveOnSP help you save money.

Nearly 400 specialty medications are eligible for this plan benefit.<sup>1</sup> If you're filling an eligible medication, a representative from SaveOnSP will contact you to complete your copay assistance program's enrollment process and arrange for the monitoring of your account.

You'll pay a reduced cost for your medication after enrolling and consenting to SaveOnSP monitoring your pharmacy account. If you choose not to participate in the plan benefit, you'll pay a higher cost share when you fill your medication.

**Conditions covered by manufacturer copay assistance programs include, but are not limited to:**

- Hepatitis C
- Multiple sclerosis
- Psoriasis
- Inflammatory bowel disease
- Rheumatoid arthritis
- Cancer

## Here's an example of how it works.<sup>2</sup>

John's taking a specialty medication that's eligible for the copay assistance benefit. His copay is currently \$70. His new cost share will be \$1,150.

- **When John participates in the plan benefit, he may pay a reduced cost out of pocket.**  
He will work with SaveOnSP to enroll in the manufacturer copay assistance program, and he'll consent to SaveOnSP monitoring his account.
- **If John decides not to participate in the plan benefit, he'll pay his full cost share of \$1,150 out of pocket.**

In both of these examples, John's cost share wouldn't count toward his deductible or out-of-pocket maximum.

1. The drug classes and medications included are subject to change. Check your plan materials to see which medications SaveOnSP supports.
